MISSOULA, Mont, U.S.A. --

Fourteen University of Montana students will spend the 1977 fall quarter working and studying in the Burgundy region of France during the 5th annual UM Fall Quarter Study Program in Burgundy. The program is sponsored by the UM Department of Foreign Languages and Literatures and the College of Arts and Sciences.

While in France, the students live with French families and earn their board and room by working. Many work in the vineyards / of this famous wine-producing region. Part of the academic segment of their course work is done in advance during the summer and part is done in France. The students participate in regular excursions to historical sites and monuments, and spend a week in Paris visiting places of cultural interest.

Participation in the program is limited to students who have completed two years study of French, but is not limited to French majors.
